- 2. Research Adviser Endorsement**
The Research Adviser reviews and endorses the proposal to the Ethics Review Committee (ERC) of their institution.
- 3. Encoding**
The ERC encodes the research study into the Ethics Tracker system for documentation and monitoring.
- 4. RES Review Board (RRB)**
The RRB reviews the following:
 1. Informed Consent
 2. Questionnaires / Research Instruments

1. Expedited Review

6. Review Result

A. Expedited Review

1. RES Coordinator counterchecks the study and the result of the review.
2. If **Approved** - Certificate is issued (with Control Number, Release Date, and Certificate Link).
3. If **Disapproved** - Returned to researcher for revision. The submission of the revised documents must be one week after receiving the results of the review. Failure to do so will result in not obtaining the clearance certificate within the semester.

B. Full Board Review

1. RES Board conducts formal review (minimum of two days deliberation).
2. If **Approved** - Certificate is issued (with Control Number, Release Date, and Certificate Link).
4. If **Disapproved** - Returned to researcher for revision. The submission of the revised documents must be one week after receiving the results of the review. Failure to do so will result in not obtaining the clearance certificate within the semester.

7. Issuance of Certificate Link

The Certificate Link is sent to the Adviser's official institutional email account within the scheduled release of the certificates.

Please be reminded that **no data gathering shall commence without the official issuance of the Research Ethics Clearance Certificate.**

This structured process ensures compliance with ethical standards and safeguards the rights, safety, and welfare of research participants.
